Environmental Leadership training report

Engineering is not merely knowing and being knowledgeable, engineering is not merely analysis, engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems, engineering is practicing the art of the organized forcing of technological change.

CMR Institute of Technology conducted University level workshop on Environmental Leadership training from 28/10/2017 to 30/10/2017. As this is a residential camp boarding and lodging will be provided by the University NSS Cell for the three days.

In this workshop they ensured the volunteers to protect the environment and how to save the plants and animals for the next generation. They gave the guidance of oneself to be healthy and hygiene.

From our college 9 NSS Volunteers attended the workshop. The following NSS volunteers attended the workshop are:
