

# THE ECE NEWS LETTER

Department of Electronics and Communication  
Engineering

The department of Electronics and Communication Engineering was established in the year 2001. It has intake capacity of 240 students. All the laboratories are well established with state of the art equipment. The department has highly qualified and experienced faculty and technical staff. An innovative teaching and learning process is implemented in imparting quality education to the students which includes conduct of workshops, seminars, industrial tours, expert lectures and various extracurricular activities. An extra laboratory over and above the JNTUH syllabus namely Advanced Technology Lab is introduced .

### *From the Editorial Board*

You can't add any more hours to your day so learning to manage your time more effectively will help you plan your work more efficiently and ensure deadlines are met. Managing time effectively is a particularly crucial ingredient in successful projects. It is important to manage both your personal and professional lives because as much as you try to keep them separate they cannot help but infringe upon one another. Managing your own time will not only benefit you but those around you as well.

The busy man only can manage to do many things, which seem to be beyond the reach of ordinary persons. The life of great leaders teaches us one lesson. They have to do many things in spite of their busy schedule. The secret therefore lies in scientific management of time. When a person says that he has no time, what he really means is that he is unable to manage his time properly. The idea of time management has been in existence for more than 100 years. The term time management should not be misunderstood as time can be managed. In fact time can't be managed. By time management what we mean is we need to manage ourselves according to the time.

Time management is actually self-management. The skills that we need to manage others are the same skills that are required to manage ourselves. Namely, the ability to plan, organizes, direct and control.

### STUDENTS ACHEVIMENTS

Miss P.Sandhya & Miss.E.Niharika 3<sup>rd</sup> ECE has won Runner up in Carrom at Vigyana college.

Miss K. Anushakala Sinha 2<sup>nd</sup> year has won Runner up in Chess at Vignan's college.

Miss U.Ashmita 3<sup>rd</sup> year ECE has won 1<sup>st</sup> prize in paper Presentation at Vigyana college

Mr.K.Bharath kumar & Mr.J. Anoop sai 3<sup>rd</sup> ECE has won 1<sup>st</sup> prize in paper presentation.

# GUINNESS WORLD RECORD

The record-breaking records annual is back and packed with more incredible accomplishments, stunts, cutting-edge science and amazing sporting achievements than ever before

Mrs Vijaya Sharada Reddy Secretary Of HMGI group of institution is giving largest mindfulness lesson

Guinness World Records 2018 Award got For Mrs Vijaya Sharada Reddy secretary of HMGI institution.

## Sankranti Celebrations

The Sankranti Sambaralu were celebrated on 10-01-2018 in Hits college campus. The day has been observed as festival look, village traditional look & representation of culture & heritage North Costal of Telangana,

Rangoli Drawn by the 3<sup>rd</sup> Year ECE Students  
The Rangoli, Village Setup & Pongali Preparation were very good with festival look and thematic representation of Pongal. Finally, the Management, Principal & all HODs gave away the Prizes to the winners at open auditorium.

Rangoli drawn by the ECE Dept Faculties.

Rangoli drawn by ECE students

## Christmas celebrations

Christmas was celebrated in a grand manner at 11.30 am. The whole program was a story about 'The Birth of Jesus' which had a fusion of over seven songs, dance accompanied by keyboard and violins. At the end of the program Santa Clause arrived and filled the entire crowd with joy and danced with everyone with great enthusiasm.

The celebrations comprised of song and dance performances by students and the attendees were Hits group members, college students. After the song and dance was over, there were refreshments for every one.

We would like to thank our supporters. In this difficult time when we are going through a lot of financial pressure, We wish all our supporters a very happy Christmas and a wonderful year ahead!

## IOT Workshop

IoT is the technology foundation of digital business. Although it presents myriad opportunities for leading organizations to address their business issues, key technical and business challenges must be overcome in order for IoT to fulfill its promise.

2018 is being heralded by several notable organisations<sup>1</sup> as a year of good tidings and synchronised global economic growth. Reports are bullish about India's participation in the global economy's

The Internet of Things presents an opportunity to transform society and establish a new ecosystem built to serve not merely humans, but humanity. In this new world, people will receive uniquely personalised services on demand, while societies will benefit from optimised resource use and minimised negative environmental impact.

## Electronics and Communication Engineering

### Vision and Mission

#### **Vision**

- To be a world leader and renowned for Electronics & Communication Engineering and research.

#### **Mission**

- To educate graduates in the basic principles underlying the field of Electronics & Communication Engineering and train our students to think independently in terms to master systematic approach to problem solving and to have a keen awareness of the role of engineering in the modern society.

#### **Program Educational Objectives**

- To prepare the students for entry into successful employment as Electronics & Communication engineers in service, consulting, and/or government organizations or for advanced study at leading graduate schools in engineering, business, management, or other technical or non-technical fields.
- To inculcate teamwork skills among the students to design and implement complex Electronics & Communication systems, particularly the ability to work with people from other fields in integrated engineering teams and develop the leadership skills for maximizing the performance of those teams.
- To offer a curriculum that encourages students to become broadly educated engineers and to equip with the attitudes and skills to foster learning themselves for life long, an ability to communicate effectively with various audiences and function as responsible member of the global society.
